

# Osmos Soft Water Dishwasher Detergent

Easily removes grease and food soils in one wash.

Suitable for use in soft water areas.

Designed for use with auto dosing systems.

A concentrated dishwasher detergent specifically designed for use with commercial and industrial dishwashing machines. Added via an auto dosing system to the main wash stage of the wash cycle, it ensures the quick and efficient removal of greasy marks from ceramics, porcelain, china and crockery.

Suitable for use in soft water areas, or where a water softener has been fitted to the machine.

Not suitable for hand washing or for use on aluminium or silverware.

## Directions for use

For professional use only.

1. This product is automatically dosed into the machine.  
The dose rate will be set by our engineers depending on water hardness.  
Typical use rates are around 2-4ml product per litre of rinse water.
