

Acid Toilet Cleaner

Quickly and effectively removes built up limescale deposits.

Ready to use formulation for ease of use.

Targeted nozzle for accurate application.

A heavy-duty, hydrochloric acid-based formulation which effectively removes limescale deposits from ceramic surfaces, toilets and shower cubicles. Designed for periodic use, to remove heavily built-up scale with ease. The cap includes a targeted nozzle, allowing for more accurate application under toilet

Not suitable for use on stainless steel or chrome.

Directions for use

For professional use only.

1. Pour around rim of toilets or across the tops of urinals.
2. Use a brush to ensure that the entire surface is evenly coated with product.
3. Leave to sit for a few minutes, before brushing away any heavy soiling.
4. Flush the toilet or urinal.
