

Nova Long Life Satin **CLEENOL** Polish

EST. 1948

Easy to apply
metallised
emulsion floor
dressing.

Dries to a matte
satin finish.

Suitable for use on
a wide variety of
flooring types.

2 x 5L | BN1010/SATIN

A high-solids, metallised emulsion polish that dries to a natural satin finish. Giving long lasting protection for most flooring types against general wear and tear especially in high traffic areas. Combines base coat and top dressing in one product for quick and easy application. The high-solids content of the product provides additional protection, meaning polishes last longer between needing fresh applications. Covers 50m² per litre per coat.

Suitable for use on a wide range of flooring types including vinyl, sealed wood, sealed cork, asphalt, linoleum and rubber.

Product Info

Colour: **Beige**

Fragrance: **Polish**

pH: **13 – 14**

Shelf Life: **24 Months**

Directions for use

For professional use only.

1. Clean the floor thoroughly before application.
If the floor has been stripped, ensure that it has been neutralised with a vinegar solution before application of polish.
2. Apply a thin coat of polish in even strokes with a clean mop or applicator (Do not use sheepskin).
3. Allow the coat to cure for at least 30 minutes before applying a second coat of polish. Leave to cure overnight.
A third coat may be required for old or very porous floors.

The use of a floor maintainer such as Novacare Buffable Floor Maintainer, can help prolong polish life between applications.

Do not apply more than 6 coats in total before stripping with an emulsion stripper such as Nova Starbrite.
