

Aids in the removal
of chewing gum
from surfaces.

Easy, targeted
application via the
aerosol.

Suitable for use on
a wide variety of
surface types.

An effective chewing gum remover in aerosol form. The freezing spray makes chewing gum hard and brittle, allowing for easier removal from surfaces.

Suitable for use on a wide range of surfaces including, carpets, floors, clothing and upholstery.

12 x 500ml | BNW5021

Directions for use

For professional use only.

1. Remove any loose gum with a bone scraper or blunt instrument.
2. Place plastic tube into the nozzle of the aerosol.
3. At a distance of ~3 inches, spray the remaining chewing gum for about 5 seconds.
4. Immediately rub the gum with the bone scraper or blunt instrument.
5. Dispose of any waste gum as it releases.
6. Repeat as needed.
