

Osmos Dishwasher Rinse Aid

Aids drying to give a sparkling, streak-free finish.

Suitable for use in medium to hard water areas.

Designed for use with auto dosing systems.

A rinse aid additive specifically designed for use with commercial dishwashing machines. Added via an auto dosing system to the final stage of the wash cycle, it ensures rapid drying of crockery and glassware to give a sparkling, streak-free finish and prevent spotting.

Suitable for use in medium to hard water areas, in conjunction with dishwashing detergents such as Osmos Dishwasher Detergent.

Directions for use

For professional use only.

1. This product is automatically dosed into the machine at the required operating temperature, during the final stage of the wash cycle.
The dose rate will be set by our engineers depending on water hardness.
Typical use rates are around 0.6-1.5ml product per litre of rinse water.
