

Crystalbrite Laundry Sour

CRYSTAL BRITE

Prevents yellowing and greying of white fabrics.

Helps to protect fabrics from damage by high pHs.

Helps to remove particulate stains such as rust.

An acidic laundry liquid designed to be added during the rinse stage of the wash to help neutralised rinse water. Which helps to prevent greying and yellowing of white fabrics as well as prolong fabric life.

Designed to be used with an auto-dosing system.

Directions for use

For professional use only.

1. To be used in the final rinse stage of the wash. Dosing will be dependent on the wash classification. the drain water after use should have a pH of ~6.0 - 6.5.

If chlorine bleach is used, the addition of sours should be separated from the bleach by at least two rinse cycles.
