

Osmos Glass Renovator Powder

Brings back
clarity to
glassware.

Suitable for use
in all water
hardness areas.

Manual dosing
for controlled
economy of use.

A powerful powdered detergent, designed for the refurbishment of glassware as well as the pre-treatment of new glassware, to remove residual chemicals from manufacturing processes. Helps to maintain beer head retention as well as lacing characteristics. May also be used as a cleaning/maintenance agent for cabinet or rotary brush type machines.

Directions for use

For professional use only.

For Soak Treatment:

1. Dissolve 100g powder per 4L hand hot water, in either a sink or bucket.
2. Immerse glassware for 5-10 minutes.
3. Rinse thoroughly with clean fresh water.

For Cabinet Machines:

1. Add 240g powder into the wash water.
Ensure operating temperature is reached before adding product.
2. Run glassware through one wash cycle.
3. Add 100g more powder after every four cycles to maintain product concentration levels.
4. If using a freshwater machine, 100g powder should be added every cycle.

For Rotary Brush Machines:

1. Add 100g powder to the wash water.
2. Soak bowl and brushes overnight.
3. Drain and rinse thoroughly before use.
