

Osmos Premium Dishwasher Rinse Aid

Aids drying to
give a sparkling,
streak-free finish.

Suitable for use
in hard water
areas.

Designed for use
with auto dosing
systems.

A highly concentrated rinse aid additive specifically designed for use with commercial dishwashing machines. Added via an auto dosing system to the final stage of the wash cycle, it ensures rapid drying of crockery and glassware to give a sparkling, streak-free finish and prevent spotting.

Suitable for use in hard water areas, in conjunction with dishwashing detergents such as Osmos Premium Dishwasher Detergent.

Directions for use

For professional use only.

1. This product is automatically dosed into the machine at the required operating temperature, during the final stage of the wash cycle.

The dose rate will be set by our engineers depending on water hardness.

Typical use rates are around 0.3-0.6ml product per litre of rinse water.
