

Warm Oven Spray

CLEENOL

EST. 1948

Foaming product –
clings well to
surfaces for
enhanced cleaning.

Effectively removes
burnt on grease
from grills and
ovens.

Can be applied
through a spray
lance for easy
application.

2 x 5L | 0831392X5

A highly effective, heavy-duty caustic based cleaner and degreaser for use on grills, ovens and other similar kitchen equipment, where caramelised grease or oil is present. Ideal for quick and easy maintenance of internal and external areas of ovens. The foaming nature of the product allows for increased contact time with the surface to be cleaned, giving increased cleaning performance.

Not suitable for use on aluminium or surfaces sensitive to caustic or alkaline pH. Not suitable for the removal of hard carbon deposits.

Product Info

Colour: **Colourless**

Fragrance: **Caustic**

pH: **>13**

Shelf Life: **24 Months**

Directions for use

For professional use only.

Ensure the area is well ventilated and the correct PPE is worn before use.

1. Warm oven to 60-80°C.
2. Turn oven off and spray product evenly over the surfaces to be cleaned.
Avoid breathing fumes.
3. Leave for 2 - 5 minutes for the product to react, before wiping with a damp cloth or pad.
Heavy or burnt on deposits may require a second application.
4. Rinse any remaining product away a 1:1 solution of water to white vinegar (500ml white vinegar per 1L) to neutralise any remaining product during rinsing.
5. Allow to air dry.
