

Evolution Antibacterial Perfumed Multi-Surface Cleaner

Description

A super concentrated blend of detergents, naturally derived acids and a quaternary ammonium compound based disinfectant. In one operation, it cleans, sanitises and deodourises, eliminating the need to have multiple products. Suitable for use on all acid-tolerant surfaces. Contains a refreshing orange scented perfume. It's concentrated nature makes the product economical in use, whilst reducing the carbon footprint of the product. Use biocides safely and sustainably. Always read the label and product information before use.

Directions For Use

When diluted to 2.7% (20 ml per 750 ml) this product conforms to EN1276, under dirty conditions with a 5 minute contact time. For lighter duty cleaning, where antibacterial activity is not required, the product can be dosed at 5, 10 or 15 ml.

Apply product to a clean, damp, sponge / cloth. Apply to wetted surface to be cleaned. Allow to air dry or buff to a finish.

Refilling 750 ml Flask: Following bottle filling directions on Product System Chart. When empty, fill to top line of bottle.

For Bucket Filling: Fill a 5 L bucket with water and then add 60 (3 pumps) - 100 ml (5 Pumps) of Evolution Product dependent on soil level of surfaces to be cleaned. For antibacterial activity, 135 ml of product in 5 L would be required. Clean surfaces as normal. Then rinse with clean water and allow to air dry.

Reloading 1.5 L Pouch:(1) Remove empty pouch from dispenser and dispose of as normal waste. (2) Remove screw cap. (3) Insert pouch in Evolution Dispenser No. 6. (4) Depress locking cap firmly into pouch. (5) Lock cabinet. (6) Insert over-rider key and pump until product is dispensed (ensure flask is in place).

Product Codes

EV11

Storage

Store in cool conditions away from direct sources of heat.

Avoid extremes of temperature.

Do not allow to freeze.

Keep out of reach of children.

Shelf Life

Shelf life 24 months, if stored as recommended.

Use within 6 months of opening.
