

PRODUCT USE GUIDE FOR CRYSTALBRITE SOUR CRLS

Product Features

- A blend of organic acids, optical brighteners, and blue whiteners, combined with wetting agents. Designed for use in commercial laundries on any fabric.
- May be added to the final rinse to neutralise alkali present in rinse-water and on fabric, and will consequently prevent yellowing (galling) and fabric damage.

Direction for Use

- The product is added to the final rinse. Dosing will be dependent upon wash classification. The drain water should have a pH of 6.0-6.5.
- If chlorine bleach is employed, the addition of sour should be separated from the bleach by at least two rinse cycles.

Storage

- Store in cool conditions away from direct sources of heat
- Avoid extremes of temperature
- Do not allow to freeze
- Ensure the cap is tightly fitted after use
- Keep out of reach of children

Shelf Life

- Shelf life 24 months, if stored as recommended.
- Use within 6 months of opening.

Environmental

- Do not allow large quantities of neat product to enter surface waterways.
- This product uses recyclable packaging. The detergents used in the formulation are biodegradable to EU guidelines under the detergents regulations (EC) No 648/2004.
- It contains no Phosphates.
- None of the components of this product are animal derived.
