

PRODUCT USE GUIDE FOR CRYSTALBRITE PEARL 35% BIOLOGICAL LIQUID LAUNDRY DETERGENT CBP35

Product Description

The product is a synergistic blend of surfactants, anti-redeposits, optical brightening agents, water softeners and enzymes. It is a fully built structured liquid.

Product Features

- It has been extensively evaluated and been found safe to use with Ozone disinfection laundry systems. It will clean effectively but will not adversely affect the germ killing power of the Ozone.
- It has been designed to be used through an automatic dosing system installed by Cleenol engineers and calibrated to take into account the water hardness and the degree of soiling encountered. This helps to eliminate waste by metering in the correct dose every time.
- It gives very effective cleaning but for stubborn stains may be used in conjunction with Cleenol Crystalbrite Low Temperature Destain or Cleenol Crystalbrite Premium Destain 35.

Direction for Use

- Use through Cleenol autodosing equipment or may be fed manually.
- Use rates vary according to the type and amount of soil present and whether it is being used as a "one shot" liquid or in conjunction with an additional stain removal agent.
- Quantities required are in the region of 10-15ml / kg dry weight of laundry.

Storage

- Store in cool conditions away from direct sources of heat
- Avoid extremes of temperature
- Do not allow to freeze
- Ensure the cap is tightly fitted after use
- Keep out of reach of children

Shelf Life

- Shelf life 24 months, if stored as recommended.
- Use within 6 months of opening.

Environmental

- Do not allow large quantities of neat liquid to enter surface waterways as ecological damage may be caused.
- In the event of a large spillage, contact the local water authority or Environment Agency immediately.
- None of the components of this product are animal derived.
