

# Crystalbrite Premium Pearl Bio Laundry Detergent

## Description

A highly concentrated biological laundry detergent that contains a synergistic blend of surfactants, anti-redeposition agents, optical brightening agents, water softeners and enzymes. It has been extensively evaluated and been found safe to use with Ozone disinfection laundry systems. It will clean effectively but will not adversely affect the germ-killing power of the Ozone.

It has been designed so it can be used through an automatic dosing system, installed by Cleenol engineers and calibrated to consider the water hardness and the degree of soiling encountered. This helps to eliminate waste by metering in the correct dose every time. Low fragrance hence may be used for overalls in food production areas.

## Directions For Use

For stubborn stains use in conjunction with Crystalbrite Low Temp Laundry Oxy Stain Remover Liquid or Crystalbrite Laundry Oxy Stain Remover Liquid.

Can be used through Cleenol autodosing equipment or may be fed manually.

Use rates vary according to the type and amount of soil present and whether it is being used as a "one shot" liquid or in conjunction with an additional stain removal agent.

Quantities required are in the region of 10-15ml / kg dry weight of laundry.

## Product Codes

CYP35/10, CYP35/20

## Storage

Store in cool conditions away from direct sources of heat.

Avoid extremes of temperature.

Do not allow to freeze.

Ensure the cap is tightly fitted after use.

Keep out of reach of children.

## Shelf Life

Shelf life 24 months if stored as recommended.

Use within 6 months of opening.

## Environmental

Do not allow large quantities of neat liquid to enter surface waterways as ecological damage may be caused.

In the event of a large spillage, contact the local water authority or Environment Agency immediately.

This product uses recyclable packaging. The detergents used in the formulation are biodegradable to EU guidelines under the detergents regulations (EC) No 648/2004.
