

Easidose Multi-Surface Cleaner & Degreaser

Description

A highly effective cleaner and degreaser for use where heavy soil and grease are evident. Can be used through a trigger bottle on exterior areas of equipment including canopy hoods, fat fryers, cookers, canopy filters, stainless steel wall cladding and glazed tiles. Fragrance Free and Food Safe for use in food preparation environments. It's highly concentrated form leads to a better packaging to product ratio i.e. significantly less packaging is used to supply the product in concentrated form, than the equivalent amount of product supplied in ready to use form. With each product in the range you get the incredible cleaning power of our Evolution Concentrates, with the added benefit of being incredibly easy to dispense an accurate, measured dose for dilution. It's tough to know exactly how well a product will perform without trying it before. The beauty of our concentrates means that if the job requires a slightly stronger or weaker solution, the dosage can be adjusted accordingly.

Directions For Use

Refilling from the Easidose Bottle System: Dose rate 10-20ml per 750ml flask, depending on the degree of soiling. Fill flask to line level with clean fresh cold water from a tap. Remove the cap from the bottle and gently squeeze to fill the built in measuring cup. After measuring, carefully pour the measured dose into the pre-filled flask. Re-attach the trigger spray head and lightly shake mixture to fully dilute. The mixture is now ready to use. Instructions for use: 1. Apply product to a clean, damp, sponge/cloth. 2. Apply to wetted surface to be cleaned. 3. Rinse surface thoroughly with clean water. 4. Allow to air dry or buff to a finish.

Product Codes

ED2/1L, EVOESD-2-RF-6X750

Storage

Store in cool conditions away from direct sources of heat.
Avoid extremes of temperature.
Do not allow to freeze.
Ensure the cap is tightly fitted after use.
Keep out of reach of children.

Shelf Life

Shelf life 24 months, if stored as recommended.
Use within 6 months of opening.

Environmental

Lower carbon footprint
Do not allow large quantities of neat product to enter surface waterways.
This product uses recyclable packaging. The detergents used in the formulation are biodegradable to EU guidelines under the detergents regulations (EC) No 648/2004.
It contains no Phosphates.
