

PRODUCT USE GUIDE FOR NOVAFROST AEROSOL BN501

Product Description

For the removal of chewing gum from carpets, floors, upholstery, clothing and most other surfaces.

Product Features

- A refrigerant liquid packed in an aerosol. When released, it operates as a freezing gas, making the chewing gum hard and brittle. In this brittle state the gum loses its adhesion and can be removed simply from the surface.

Direction for Use

- Remove loose gum with a bone scraper or blunt instrument.
- Place plastic tube into the nozzle of the aerosol.
- Keeping the other end of the tube about 3 inches away from the remaining gum, spray for about 5 seconds. Immediately rub the gum vigorously with a bone scraper, spoon handle or similar blunt instrument. When the gum has been released from the surface, collect it in a receptacle. Repeat if necessary.

Storage

- Store in cool conditions away from direct sources of heat
- Avoid extremes of temperature
- Do not allow to freeze
- Ensure the cap is tightly fitted after use
- Keep out of reach of children

Shelf Life

- Shelf life 24 months, if stored as recommended.
- Use within 6 months of opening.

Environmental

- Do not allow large quantities of neat product to enter surface waterways.
- None of the components of this product are animal derived.
