

PRODUCT USE GUIDE FOR CRYSTALBRITE ACTIVE CRLD1

Product Description

A synthetic non-biological liquid detergent with effective stain removal properties. Leaves clothes clean, soft and fresh. Use rates may vary according to the type and amount of soil present and whether it is being used as a one-shot product or in conjunction with an additional stain remover such as Cleenol Destain or Alkaline Boost.

Product Features

- A non-biological phosphate free liquid detergent designed for light to medium soiling.
- The product has excellent stain removal properties even at temperatures as low as 30C, and has been formulated so that the need for pre-soaking or rewashing is dramatically reduced when used in conjunction with Boost or Destain Plus. However, where bleachable stains such as tea, coffee or wine are excessive, Cleenol recommends the use of Crystalbrite Enzyme Pre-soak Powder.

Direction for Use

- Use through Cleenol auto dosing equipment or may be fed manually.
- Use rates vary according to the type and amount of soil present and whether it is being used as a "one shot" liquid or in conjunction with an additional alkaline boost. Quantities required are in the region of 100-250ml / 12kg / 25lbs.

Storage

- Store in cool conditions away from direct sources of heat
- Avoid extremes of temperature
- Do not allow to freeze
- Ensure the cap is tightly fitted after use
- Keep out of reach of children

Shelf Life

- Shelf life 24 months if stored as recommended.
- Use within 6 months of opening

Environmental

- Do not allow large quantities of neat liquid to enter surface waterways as ecological damage may be caused.
- In the event of a large spillage, contact the local water authority or Environment Agency immediately.
- This product uses recyclable packaging. The detergents used in the formulation are biodegradable to EU guidelines under the detergents regulations (EC) No 648/2004.
- It contains no Phosphates.
- None of the components of this product are animal derived.
