

Crystalbrite Laundry Sour

Description

Specially formulated to prevent the yellowing of fabric (galling) and fabric damage through the neutralisation of alkali present in rinse-water. It contains a blend of organic acids alongside optical brighteners and wetting agents to aid in the restoration of bright whites. For use in commercial and on-premises laundries.

Directions For Use

The product is added to the final rinse. Dosing will be dependent upon wash classification. The drain water should have a pH of 6.0-6.5.

If chlorine bleach is employed, the addition of sours should be separated from the bleach by at least two rinse cycles.

Product Codes

CRSOUR/20/13404

Storage

Store in cool conditions away from direct sources of heat. Avoid extremes of temperature. Do not allow to freeze. Ensure the cap is tightly fitted after use. Keep out of reach of children.

Shelf Life

Shelf life 24 months, if stored as recommended. Use within 6 months of opening.

Environmental

Do not allow large quantities of neat product to enter surface waterways. This product uses recyclable packaging. The detergents used in the formulation are biodegradable to EU guidelines under the detergents regulations (EC) No 648/2004.

Notes

It contains no Phosphates.
