

## Crystalbrite Laundry Oxy Stain Remover Liquid

### Description

A super concentrated solution of hydrogen peroxide oxidizing agent. Can be used safely to remove bleachable stains which can not be treated with chlorine based bleaches due to the risk of colour removal from the original dye compounds. Also, highly effective for the treatment of mildew on white or coloured work.

### Directions For Use

Use during the hot stage of the wash or by cold soaking in the bath or washing machine over night.

Designed to be used through an automatic dosing system installed by Cleenol engineers and calibrated to take into account the water hardness and the degree of soiling encountered. This helps to eliminate waste by metering in the correct dose every time.

Typical dose rates would be 8 – 12 ml per Kg of Laundry.

### Product Codes

CRDESTAIN35/10, CRDESTAIN35/20

### Storage

Store in cool conditions away from direct sources of heat.

Avoid extremes of temperature.

Do not allow to freeze.

Ensure the cap is tightly fitted after use.

Keep out of reach of children.

### Shelf Life

Shelf life 24 months if stored as recommended.

Use within 6 months of opening.

### Environmental

Do not allow large quantities of neat liquid to enter surface waterways as ecological damage may be caused. In the event of a large spillage, contact the local water authority or Environment Agency immediately. This product uses recyclable packaging. The detergents used in the formulation are biodegradable to EU guidelines under the detergents regulations (EC) No 648/2004. Do not use large quantities where on site where biological effluent treatment is employed.

### Notes

It contains no Phosphates.
